to present

"How to Defraud a Financial Institution (F.I.) in Three Easy Steps"

MINNEAPOLIS, MN – June 14, 2019 --Argos Risk, a leading provider of Third-Party Risk Intelligence solutions, today announced their next Webinar in a series of Webinars with Credit Union National Association (CUNA). CUNA, recognized as the most influential financial services trade association that advocates on behalf of all of America's credit unions joins forces with Kevin Sasser, Argos Risk's Director of Sales and Marketing, to present a Webinar on June 19, 2019 entitled "How to Defraud a F.I. in Three Easy Steps."

"We work with numerous credit unions across the U.S. and are excited to present the second in a series of Webinars to compliance and operations professionals," said Sasser. He will share his expertise and outline how to avoid a false sense of security in third-party risk management programs, how to identify "confirmation bias," and how fraudsters use confirmation bias to defeat risk mitigation practices.

With the increasing scrutiny on third-party vendor relationships, this Webinar is a great opportunity to learn about the latest in industry trends, common mistakes, best practices to strengthen your risk management program, and what you can do to protect your institution.

"We hear about an overwhelming amount of compliance challenges and are delighted to continue working with CUNA to present educational Webinars that help protect credit unions throughout the U.S. This Webinar will deliver comprehensive information which provides proactive versus reactive risk mitigation strategies," said Lori Frank, President and CEO of Argos Risk.
