

**Argos Risk to present at Cornerstone's  
2019 Enterprise Risk Management Conference**

**MINNEAPOLIS, MN – July 23, 2019** - Argos Risk's Kevin Sasser will present two sessions at Cornerstone's 2019 Enterprise Risk Management (ERM) Conference August 8<sup>th</sup> and 9<sup>th</sup> in San Antonio, TX. The breakout sessions, "How to Defraud an ODFI in 3 Easy Steps" and "Threat Assessment: Finding your Risky Business" will be co-presented with RP Payments Risk Consulting Services founder, Rayleen Pirnie.

Designed for compliance, audit, payments and operations professionals, Cornerstone's ERM conference allows credit unions to meet experts and influencers face-to-face and learn how to plan, organize, and control the credit union activities to minimize risk on capital and earnings.

"We are looking forward to presenting with Ms. Pirnie at the conference. It is excellent opportunity to work with our Affiliate partner, RP Payments, and meet with more than 600 credit unions from Arkansas, Oklahoma, and Texas," said Sasser, Argos Risk's Director of Sales and Marketing. "Plus, you may be very surprised to learn how a small, Texas based ballet company unknowingly became part of a \$41 million fraud scheme," added Sasser.

The first session, "How to Defraud an ODFI in 3 Easy Steps," will illustrate common vulnerabilities along with providing best practices for securing and enhancing your third-party risk management program. The second session, "Threat Assessment: Finding your Risky Business," attendees will have the opportunity to use actual documented threats and determine the appropriate response once the risk is isolated.

Argos Risk works with hundreds of organizations in implementing best practices related to continuous third-party risk mitigation programs. "We have spoken across the nation on payments fraud and are pleased to join credit union compliance and operation professionals at Cornerstone's conference," said Rayleen Pirnie, Founder of RP Payments.

## **About Argos Risk**

Argos Risk is a leading provider of Third-Party Risk Intelligence solutions. Formed in 2010, we are experts in Third-Party Risk Intelligence services to fulfill a need for timely and comprehensive risk mitigation knowledge. Innovative and affordable subscription services help companies manage the risk associated with their third-party relationships; such as Vendor Management, ACH/RDC originators and lending clients – direct and indirect, and Supply Chain Management.
