

Argos Risk Announces Partnership Established with Gatekeeper

Argos Risk's flagship solution, AR Surveillance™, provides Supplier and Vendor Management teams credit risk insight into key third-party relationships

MINNEAPOLIS, MN, April 22, 2020 - Argos Risk, a leading provider of Third-Party Risk Intelligence (TPRI) services for managing and monitoring the financial viability and overall business health of third-party relationships, announced it has entered a strategic partnership with Gatekeeper. Gatekeeper is a cutting-edge, AI-driven Contract & Vendor Management SaaS solution, which helps its customers manage their contracts and vendors throughout their full life cycle.

"This partnership benefits our customers by providing them with up-to-date risk information on their key vendors and counterparties. Whether alerted to changes in the risk profile of existing vendors or surfacing the information pre-signature to help with decision-making, Argos Risk's data is a natural fit with the Gatekeeper solution," said Patrick O' Connor, Director at Gatekeeper.

Gatekeeper automates supplier onboarding and vendor compliance while offering extensive integration support for over 220 third-party solutions. Gatekeeper features enhanced tracking of vendor performance, drives optimum value with relationships and ultimately allows one to better manage a vendor's scorecard and limit risk.

Argos Risk's AR Surveillance leverages more than 10,000 data points to assign risk scores to a company's third-party relationships. It automatically generates and sends alerts about significant changes, including lawsuits, liens, mergers, acquisitions, key executive changes, and other material news and events. AR Surveillance provides key information into a company's operations, incorporating financial viability, current trade payment behavior, business health, industry outlook, and much more.

"We are excited to announce our strategic alliance with Gatekeeper and appreciate their vote of confidence in becoming a partner," said Lori Frank, President, and CEO of Argos Risk. "Combining our strengths provides incredible opportunities to further engage Gatekeeper's customers in the U.S. and deliver supplier and vendor management teams additional compliance and risk mitigation tools," added Frank.

About Argos Risk

Argos Risk is a leading provider of Third-Party Risk Intelligence solutions. Over the past decade, Argos Risk has fulfilled a need for timely and comprehensive risk mitigation knowledge with third-party risk intelligence. Argos Risk provides innovative and affordable subscription services to help companies manage the risk associated with their third-party relationships in Supply Chain Management, Vendor Management, ACH/RDC origination, and Direct and Indirect Lending.

About Gatekeeper

Gatekeeper is an AI-driven Contract & Vendor Management SaaS solution, which helps customers manage their contracts and vendors through their full lifecycle. By centralizing all contract and vendor information into Gatekeeper, customers benefit from clear visibility of their contract and vendor data; time savings with the ability to securely delegate access to relevant internal and external information; advanced automation tools which can be used for simple tasks such as timely renewal reminders right through to complex, fully digitized business processes; and enhanced compliance and significant resource savings as a result of deploying Gatekeeper's AI and automation tools.
